OTC3109 Trilingual OBD II/EOBD & CAN Scan Tool

Introducing the next generation of scan tools.

Get scan tool features at a code reader price. Live Data allows the user to view vehicle sensor, switch and relay inputs in real time, while the engine is running. This information helps pinpoint problem components for a faster diagnosis. Additionally, the OTC3109 displays all 9 modes of OBD II data and meets European OBD standards.

OBD II information available:

- Read and display LIVE sensor data
- Displays generic and enhanced definitions on screen
- Read and display MIL status
- Read and erase diagnostic trouble codes
- It will give visual indication when the tool is trying to communicate and retrieve data from an OBD II vehicle
- Read and display I/M monitors (emissions)
- Read and display pending DTCs
- Read and display freeze frame data (snap-shot of vehicle data at the time of the fault)
- Read and display VIN number, CVN and Cal ID
- Display State OBD check
- Display OBD II Drive Cycle Mode
- Read and display O2 Monitor Test
- Read and display Diagnostic Monitor Test
- Read and display On Board Systems

Additional Features:

- Over 15,000 code definitions for comprehensive coverage
- Field updateable via USB port for future expansion
- EOBD compatible (European On Board Diagnostics) - EOBD is the European equivalent of the American OBD II standard, which applies to petrol cars sold in Europe from 2001 and diesel cars 2004 and newer
- CE certification - The CE marking certifies that a product has met EU consumer safety, health or environmental requirements.
- Trilingual menu, manual and definitions (English, Spanish, French)

USB Port: for receiving online updates
